About Us

ReformedTech.ca is a company that is deeply rooted in providing services that are capable of projecting the services of other companies. In the business world today, there is continuous digitization going on across all business sectors. Business with low digital awareness and integration is at the risk of fading away.

With our innovative IT solutions, many companies now boast of increasing popularity through the internet (website and mobile app) and ease of doing business through the use of software specially designed for them. Whether your business or company is at the start-up stage, or it is a small scale business, even if it is a large scale, we know that your ultimate goal is to grow your business beyond its current level. ReformedTech will listen to you and help you achieve this feat without causing you any unnecessary loss or business disruption.

At ReformedTech.ca, with our wealth of experience and countless success stories, we are confident that we have the capabilities to promote businesses in all sectors, having an in-depth understanding that the success of our clients invariably means our success. Our primary objective is to help our clients maximize the latest innovations in the IT sector, bringing yields beyond expectations. With ReformedTech, there are no limits or bounds to growth and success!

Great Features

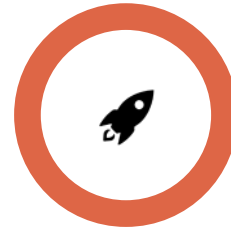

We give our clients the opportunity to work alongside our team, providing valuable insights on their specific requirements as we take a step further to deliver an innovative digital solution to them.

Our Vision

To support our clients to achieve success and unparalleled growth with the aid of innovative solutions.

Our Mission

To be your partner in working smarter, growing businesses, and maximizing opportunities.

Our Core Values

Client Satisfaction

In our bid to win on all fronts, we must make sure that we win with our customers. Winning with our customers means that our services make a noticeable positive impact on our client's business within the shortest possible time.

Support

We support our clients with all the resources at our disposal, ensuring that our clients make a smooth transition to the innovative digital technology and maximizing the benefits provided by the internet platform.

Professionalism

ReformedTech works with professionals who combine skills and experience in all the projects they handle. Our professionals collaborate with our clients in terms of their specific requirements, design a roadmap that will suit the needs of the particular client.

Integrity

We work with integrity; we keep our promises. We are not a bunch of sweet talkers. We deliver what we promise, and the list of clients we have worked with attests to this fact.

Our Services

Web Development

If a business is ever going to achieve the incredible, securing a website with all necessary features plays a massive role. Web development is the most vital in managing a successful online presence. For all sorts of industrial sectors and business types, online presence promotes and attracts a sizeable prospective audience to the service you deliver. Looking for the best web development company? You already have it, ReformedTech is your choice partner for all your web development needs.

Our professionals design bespoke websites, helping businesses to succeed through result-oriented, and innovative digital services. This will give you an advantage over all competitors. Our web design and development projects meet the specific requirements of the client and have been known to inject positive energy into the business.

Mobile App Development

Mobile apps are interfaces or platforms that are designed to work on mobile devices, delivering the services they are intended to perform. It is a known fact that smartphone users are increasing. This is good news for you. It implies that you can now reach your target audience on the go. The use of mobile app makes it easier for your customers to relate with you and maximize the opportunities provided through your services.

This is the actual time for you to have a mobile application that works for the specific services you render. Make no mistakes; smartphone users are one of the most active customers. That is why you should discuss with ReformedTech use your ideas to build a mobile app exclusively for you and your customers.

Software Development

We are a top-rated software development company. We develop customized software for our clients to limit their business complications. Our software solutions target your core business processes in an attempt to optimize them and deliver efficiency. We design, build and employ software applications in solving complex business challenges. With this in mind, we achieve our aim through cutting-edge solutions that redefine every norm or technological difficulty.

As a technological hub, we are a reliable software development and engineering partner for world-class brands and businesses. Leverage our experience and expertise to create a customized software foundation for your business.

E-Commerce

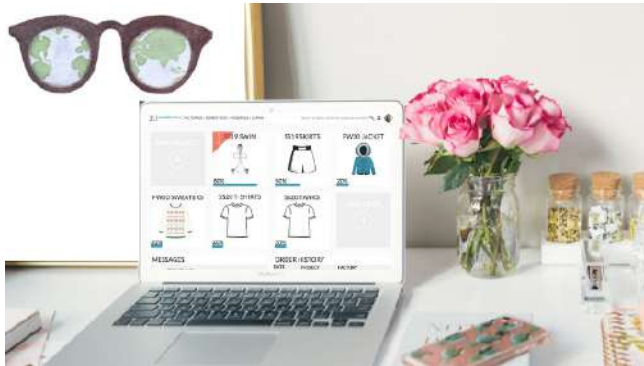

We have helped countless firms and brands to build a reputable online shopping/buyer experience leading to a stronger seller-customer relationship and establishing a relationship based on trust with the customer, which will foster loyalty. Whether your needs are online stores, e-channel integration, payment platform, or mobile commerce, ReformedTech will deliver all the features that will make you stand out.

Our Projects

Cabi, NYC's leading platform for finding Taxi car and driver.

Cabi is where you can connect with up to date listings for renting a car or finding a car to drive. Search through owners and drivers from multiple services like Yellow or Green cab, Uber, Lyft, Limos and much more in your location of choice.

THR3EFOLD a Platform to Build Your Ethical and Sustainable Fashion Brand.

THR3EFOLD believe fashion can positively impact people and planet but you can't build a business alone. So at THR3EFOLD, you gain access to a knowledgeable community where you can learn and find resources, search ethically certified factories around the world, and manage your production.
